Edward Williams & Barbara Patterson

7/31/97

Dear Hal,

I got married two weeks ago. F. Scott Fitzgerald wrote, "There are no second acts in American lives." Perhaps there are.

I watched The Ray Hill hearings on C.N.N. The F.B.I. lab Report made a prophet of you.

The internet at least leapfrogs the traditional media who attacked The CIA drug connection which was proven by McCoy twenty five years ago!

"Probe" quoted you appropriately.

As per the ambulance, Bob Groden was cross-fired at The O.J. Civil trial.

I couldn't believe Weegee would appear on "Alien autopsy!"

The comments by Rosselli underlined is exactly why I don't buy the Mob Hit theory.

Hope this letter finds you well.

Sincerely,
Ed
